

**D**iscover the power of APT's complete metal, copper and insulation fabrication capabilities, transforming your exact requirements into engineered products with laser precision, Made-in-USA craftsmanship:

- Cutting-edge Substation, Distribution and DER Utility Interconnection Switchgear
- Conventional and Rapid Deployment Walk-In Equipment Building Enclosures for Switchgear, Microgrids, Battery Systems, Relay Panels

### **38kV to 208V Switchgear & Switchboards**

- Utility Main-Tie-Main Switchgear
- Generator Paralleling Switchgear
- Automatic Transfer Switchgear | ATS
- Pre-Fabricated **Walk-In** Switchgear, **NEMA 1, NEMA 3R**
- Containerized & Trailer Mounted Mobile Substations & Switchgear
- **Aluminum, Carbon, Galvanized, Stainless Steel (304 & 316)**
- Unit Substations
- Compact and Front Access Only Switchgear
- Emergency Generator & Load Bank Quick Connection
- Low and High Impedance Grounding Systems
- Electric Utilities
- Data Centers
- Mobile and Off-shore Power
- Manufacturing
- Water & Waste Water Treatment
- Alternative Energy Distribution
- Universities & Medical Centers

Product Line Information

# **APT**

## **ADVANCED POWER TECHNOLOGIES**

- Pre-engineered MicroGrids
- Intelligent Generator and Distribution Switchgear
- PLC control, Annunciation and Relay panels
- Motor Control panels
- Uninterruptible Power and Motor ride-through Systems

**[www.apt-power.com](http://www.apt-power.com)**  
**Company Product Lines**

**SAFE | SMART | SERVICEABLE  
SUBSTATIONS  
SWITCHGEAR | SWITCHBOARDS**

# Switchgear

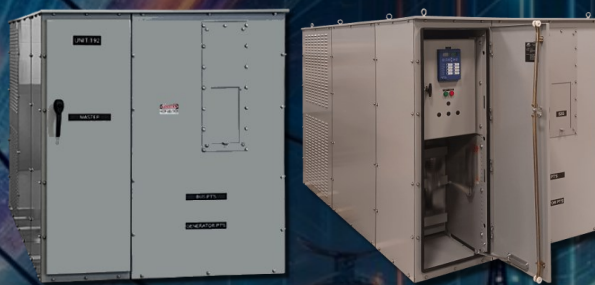

## 2.4kV – 15kV Metal Clad Switchgear 15A-Series | MEA-Series

**ANSI C37.20.2 and ANSI C37.20.3**

- Drawout Vacuum Circuit Breakers
- Compartment Barriers & Drawout PTs
- Insulated Main Bus
- Traditional and Compact configurations

# Substations

## Medium Voltage Substations MTL-Series | PwrSkid | PAD-Series

- Low Profile Indoor/Outdoor Switchgear and Unit Substations
- Skid Mounted Switchgear
- Integrated Transformers
- 38kV to 15/5kV to 800/208V

# Switchboards

## 208V – 800V Switchgear SBU-Series | SGU-Series | GenProtectL

- UL 891 listed up to 4000A
- Barriercd ANSI C37.20.1 styles
- Available as Front Access Only
- Insulated & Molded Case Breakers
- Customizable Sections

## 2.4kV – 38kV Metal Enclosed Switchgear

**MED-Series | FAC-Series |  
GenProtectM  
ANSI C37.20.3**

- Compact and Front Access Only options
- Drawout or Stationary Mount VCBs
- Visible Disconnect Switches
- Mobile Applications options

## Walk-in Switchgear & SCADA PwrHouse | PwrContainer | APTView

- Walk-in switchgear enclosures
- Fully insulated and climate controlled
- ISO container based
- Easy Shipping for Rapid Deployment
- Visual Control with APTView SCADA

## Generator Quick Connection Cabinets MF2-Series | FS2-Series | WM2-Series

- 208V - 38kV
- Floor Standing with ICCBs
- Wall Mount with MCCBs
- Connect Portable Generator and/or
